

## Dear Parents, Greetings!

We are reaching out to the community to share this educational information about a new and innovative over-the-counter (OTC) medicine for middle-ear infections.

I would like to share a brief personal story – about what led me to develop this 100% effective, OTC medicine for middle-ear infections, in a single treatment, using all natural oils from flowers and seeds that helps avoid the common over-use of prescription antibiotics.

---

One day, my subconscious took me to my childhood days, where decades ago, I recalled how my late mother in rural North India, without access to western trained doctors and pharmacies, treated my painful, itching ear infection in just a matter of minutes.

As I remembered, she warmed up some oil in a cup and had me lie on my side with my sore ear facing up. She then immersed a piece of cotton in the warm oil and squeezed a few drops of the oil into my ear. I experienced immediate, soothing relief from the pain and itching and was happily playing again without any continued signs of infection.

---

Decades later I remembered the oil she used and began experimenting to develop a unique formula and treatment for which I applied and was granted a US Patent. Today, we call it **Ear Natural® ear drops**.

Ear Natural® treats both the symptoms and *viral/bacterial* root causes of middle-ear infections, relieving ear pain and itching at home, in just minutes, avoiding the trouble of rushing to urgent care and taking prescription antibiotics that often do more harm than good.

---

Sooner or later this season, many parents will be looking for ways to treat their child's middle-ear infections at home. Ear Natural® is a welcome new addition to be stocked in home medicine cabinets – helping to minimize the suffering, time and expense of middle-ear infections in children *as well as adults*, with enough medicine to last a season.

---

As a way to give back to the community, we will donate to your local school, \$5.00 per shipped order, for orders made by parents (*tracked via a promo code "School" and shipping zip code*) on **www.EarNatural.com**. In addition, for a limited time we're offering a 33% discount, for a net price of \$30 with "School" promo code (*plus shipping & handling*). You may optionally purchase **Ear Natural® ear drops** on Amazon.

With Kind Regards,

**Tara Chand, Founder & President – IPG Natural Health LLC** – Manufacturer/Distributor of Ear Natural® ear drops

**- Ear Natural is 1000 times better than antibiotic prescriptions**

### Ear Natural<sup>®</sup> – What it is and How it Works

Ear Natural ear drops is a 100% effective, proprietary medicine, in a quick & easy, one-time treatment with hundreds more natural compounds

than prescription antibiotics. Ear Natural instantly relieves severe pain/itching and is effective for both bacterial and viral infections of the middle-ear.

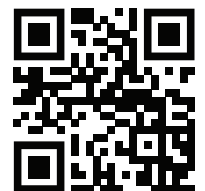

### Natural Ingredients - No Chemical Extracts

Ear Natural<sup>®</sup> is made from 100 % natural flower and seed oils with zero chemical extracts

### Avoids Overuse of Antibiotics

Widespread antibiotic prescriptions for infections has impaired the viability of antibiotics by causing a rise in resistant strains of bacteria.

**Ear Natural helps avoid the overuse of prescription antibiotics.**
